'WHAT YOU DO MAKES A DIFFERENCE, and you have to decide what kind of difference you want to make'

Dame Jane Goodall, Primatologist and Anthropologist

Dr Jane Goodall, turns 90 this year, and is still travelling the world inspiring hope. She spells out her four reasons for hope: the amazing human intellect; the resilience of nature; the power of young people; and the indomitable human spirit. What we each can do on a daily basis can make a difference. It's not time for 'standing-by'.

Young Climate Warriors are challenged this week not to just 'stand-by' but to reduce 'vampire power' by switching off appliances left on standby. Young Climate Warriors provides an opportunity for children to feel empowered and engage with issues related to climate change; it also offers a way of letting their voices be heard. Please ask them to email hello@youngclimatewarriors.org – and let us know how many vampires have been slain! Every email receives a personalised reply!

Don't just 'stand-by' ...
take action &
then 'share it'!

Little glowing eyes follow you in the dark ... as you leave the room at night as you leave to go to school ... they just carry on glowing. Can you guess what these energy-sucking vampires are?

Hunt down all little red or green eyes – count how many you find – and then switch them off (checking with your parent/carer first!).

Don't just 'stand-by', take action! Send us photos of 'vampire eyes' – and tell us how many vampires you have slain!
hello@youngclimatewarriors.org

Stand-by challenge!

YOUNG CLIMATE WARRIORS

When you've completed this challenge ... Remember to hit the red button!
